PROJECTS

ResumeAI - Full Stack Resume Builder

React.js, Node.js, Express.js, MongoDB, JWT, bcrypt, Tailwind CSS

- Built a full stack MERN resume builder with 10+ features, including authentication, resume CRUD, live preview, template selection, and one click PDF export.
- Implemented 8+ RESTful APIs for authentication and resume management, executing full CRUD operations with MongoDB and Express.js.
- Secured 100% of user routes with JWT authentication and bcrypt password hashing, restricting resume access to authenticated owners only.
- Architected a modular component library powering 15+ resume templates, enabling rapid feature rollout and consistent UI across the app.

QueryX - Next Gen AI Search Engine

React.js, Node.js, Express.js, MongoDB, Groq LLM, SerpAPI, Tailwind CSS

- Created a full stack AI powered search engine with 8+ features, including AI search, quiz generation, exam mode, voice search, and offline caching.
- Integrated Groq LLM and SerpAPI to combine AI generated answers with real time web results, cutting manual lookup time by 80%.
- Delivered and secured 10+ RESTful APIs with JWT authentication, enabling user specific history and protected frontend backend communication.
- Enabled offline caching for 100+ search results, reducing redundant API calls by 60% and enabling access without internet.

Personal Portfolio Website

React.js, Tailwind CSS, JavaScript

- Launched a personal portfolio site showcasing 4+ projects with an interactive skills breakdown, smooth scroll navigation, and fully responsive layouts.
- Deployed the site on Vercel, achieving fast page load performance and 100% uptime.
